

---

Beyond a doubt, Brent Leas is the most qualified person to run for the school board position for the Bentonville Public Schools, Zone2. As a well-respected businessman & community leader, Brent has proven he can support the efforts of the school district to collaborate and bring other Civic/Business leaders to the table for healthy and robust discussions that effects change. I am certain Brent will continue to build partnerships already forged in his current service, as already has been exemplified in his valued input in the creation of the Ignite Professional Studies program. He will be a constant advocate for both students and business patrons to create a balance between academics and business needs for our community. We need Brent and his commitment to continue - Building Educational Momentum - for our students and community. Vote for Brent Leas, Sept. 19th or early voting begins Sept. 12th.

Respectfully,

 7/14/17
